

# ONE HEALTH IMPACT

## ONE COMMUNITY AT A TIME

The Winnipeg Humane Society's (WHS) One Health program set up clinics in 11 of the 63 First Nations communities in Manitoba. While WHS set up 14 more external/remote and internal clinics in 2023-24 than 2022-23, each clinic costs around \$25,000. Costs rose to around \$95,000 this year, an increase of \$350,000 since 2022-23. WHS's progress is only possible because of our generous donors, but the need for resources is still urgent.
